ABOUT ME

I am a 19-year-old Belgian applied informatics student. In my free time, I play volleyball and I like to practice and enlarge my knowledge about programming. I am a patient and calm person who likes to work with other people from different cultures. I am a perfectionist, that mostly expresses itself positively because I cannot leave the job half done. But I have to make sure that this doesn't become a pitfall.

WORK EXPERIENCE

AUGUST 2019 / SEPTEMBER 2019

Manual finish / Drukkerij Artoos

Kampenhout
